#### Why Enrol for the TPD programme at Mount Kenya University?

- Centre of Excellence in Teacher Professional Development:** MKU School of Education has vast experience in providing professional development within East and central Africa.
- Experienced Faculty:** The University has a pool of experienced teaching faculty with requisite knowledge, skills, attitudes and competences and well -trained faculty in various fields in teacher education to facilitate the training via modern technologies.
- Convenient and flexible fees payment:** fees payment can either be deposited in the bank account or paid via Mpesa paybill and receipts auto-generated and sent via email and SMS notification.
- Supportive learning Environment:** The University offers supportive learning experience to Learners, such as training manuals, Short and Personalized Videos, Online training through Microsoft Teams and other interactive e-learning platforms, Online Ticketing and helpdesk, Knowledge-based database and E-resources and library access.
- Modern Learning Technologies:** MKU provides a versatile and easy to navigate learning that support the delivery of the online component of TPD.
- Presence:** The University has spread its network within the country through campuses, Open, Distance & Electronic Learning (ODEL) centres and strategic partnerships with key stakeholders in the 290 sub-county TPD Training centres in Kenya to support learning.
- Community of Practice:** The University has supported the schools in building a Community of Practice and life-long professional networks where teachers have shared expertise and experiences.
- Subsidized e-Learning bundles:** MKU has partnered with Safaricom to enable learners to purchase subsidized monthly data bundles (10 GB @ Ksh. 500 to access online learning and e-resources).

#### Mode of delivery

The TPD programme is delivered through modules using Competency-Based Teacher Education model. This is offered in a Blended Learning approach, (face-to-face and Online learning) where the teachers and instructional leaders access the online training any time, anywhere via modern technologies. These blended mode is strengthened through follow-up observation visits to schools by the University facilitators, Community of Practice networks and lesson study.
